FOR FANS OF: Harold Budd, George Winston, Ólafur Arnalds, Eluvium, Yann Tiersen, Dustin O'Halloran, Hauska, Ryuichi Sakamoto, Whale Fall

"Peaceful, piano-led compositions that revel in wistful, elegant ambiance... uniformly enjoyable... highly recommended." — [Stephen Carradini, Independent Clauses](#)

21 Oct 2022, LOS ANGELES, CA: THE PAPER SEA, a solo instrumental music project of **Jared Matt Greenberg (The Rosemarys, Charles Atlas, Whale Fall)**, is proud to present:

★ A [remix of "Shadow Falls"](#) by **Tyler Stone** (Nick Phillips, Robin S., Armand van Helden)

★ An exquisite vinyl release of the critically acclaimed debut *Shadow Falls* — recorded and produced by Greenberg and mastered by **Damien Rasmussen** (Tom Waits, Cibo Matto, Dance Hall Crashers).

REMIX: Renowned producer **Tyler Stone** takes on "Shadow Falls" in "Shadow Falls (Tyler Stone Remix)," an irresistible danceable-yet-downtempo remix with shimmering percussion, gently punctuating piano and sultry cornet lines. Stone and Greenberg first played together in San Francisco band **Sutro** in the early 2000s; "Shadow Falls (Tyler Stone Remix)" represents their first collaboration in nearly 20 years.

DELUXE VINYL RELEASE: Sporting the original album art by Rod Nelson on a beautiful gatefold jacket enhanced with debossing and UV spot coating, the vinyl release of *Shadow Falls* also includes a screen-printed art-only LP side ([see images here](#)) alongside rich, high-quality sonics. This is an album to revisit on new media after last year's well-received CD/digital release!

Named a [Top 10 album of 2021 by Stephen Cardini of Independent Clauses](#), one of Rick Maymi's (Brian Jonestown Massacre) [30 Albums from 2021 Not to Be Missed](#), and longlisted for WherePostRockDwells' audience-selected 2021 album of the year, *Shadow Falls*' "compelling and hopeful" (*We Write About Music*) and "uplifting" (*Captured Howls*) instrumental music has attracted enthusiastic reviews. *Shadow Falls* features Greenberg on various keyboards as well as cornet, guitars, and percussion. Keyboardist and founding member of early '90s San Francisco shoegaze band **The Rosemarys** and core member of the instrumental group **Charles Atlas**, Greenberg has also played with **John Vanderslice, Primitive Painters, Dart, Sutro, An American Starlet, Carta**, and others. Since 2011, Greenberg has garnered kudos ([A Closer Listen](#), [Echoes & Dust](#), [Spectrum Culture](#)) for his cornet and keyboard work as part of Los Angeles post-rock quintet **Whale Fall**. After experiences touring the world and placing music in film and television, Greenberg comes home with **THE PAPER SEA**: intimate, personally crafted instrumental music. *Shadow Falls* displays a variety of influences ranging from new wave and

ambient to world music, classical, and jazz, and resonates with childhood memories, wistful moments, melancholic longing, and lasting love.
